 4 этапа трансформации: 1. Хелленизация, 2. период, 3. период, 4. период.
 1. Хелленизация — это процесс, когда человек начинает осваивать природу, использовать ее ресурсы, строить города, создавать цивилизацию. Это процесс, который начался в древности и продолжается до сих пор.

Это неслучайно, потому что человек — существо, которое не может жить без природы. Он зависит от нее, как растение от почвы.
